

Contour Edging

Description

L-profile made from CorTen® steel or galvanized steel. With folded top edge. Hidden connection and anchoring. For both flexible and rigid designs.

Installation requirements

- Anchoring pins and connection plates included
- 2/3 of the profile must not exceed the surface area
- Compacted substrate or concrete for heavier traffic loads

Possible surfaces

- = Soft landscapes such as grass, soil, loose stones, sand, wood chips, peat
- = Rigid landscapes such as asphalt, concrete, rubber, gravel, gravelboard, plastic, bricks
